

FitzWest as it appears today. The dotted line indicates the boundary of the Fitzrovia West Neighbourhood Forum

THE FITZWEST PLAN

Mission and Vision

This exhibition is the culmination of more than a year's work, during which we have sent out questionnaires, held public meetings and talked to numerous individuals and local companies. Thanks to everyone who has contributed.

We have now distilled your views into a set of proposals, each of which also stems from the original mission and vision.

Mission

Our mission is to ensure that FitzWest develops as a habitable, sustainable and

neighbourly community through all means available including planning, collaborative working and community enterprise.

Vision

Our vision is a vibrant, prosperous, creative and

connected neighbourhood where people from all sectors and communities enjoy well-being and work collaboratively to ensure that their living and working needs and interests are met in an inclusive and equitable manner.
