

Conservation Areas:
 RP Regents Park
 HS Harley Street
 EM East Marylebone
 CW Charlotte Street West
 CS Cleveland Street
 HA Hanway Street

Boundary approximate - areas outside FitzWest boundary not marked
 Lines indicate height restrictions implied by strategic views

- Q1. HOUSING**
Where, if anywhere, should new social housing be built and which existing blocks be refurbished/redeveloped?
- Q2. ARCHITECTURAL QUALITY**
Mark on your own map the buildings you particularly cherish for their architectural qualities or historic associations?
- Q3. COMMUNITY BUILDINGS**
Which buildings or institutions are important to you?

Proposals

We'd like to know which of these actions you feel will be fruitful. Where could new development take place? Where should existing buildings should be protected, both inside and outside the Conservation Areas? We propose to:

- Establish local development principles for inclusion in the Neighbourhood Plan
- Identify land and buildings in public ownership for provision of new social housing
- Prepare a register of local historic assets and community assets
- Research specific needs of the young and old during development of the plan
- Identify where the Neighbourhood Plan can add value to and supplement existing planning policies
